Reason for Allowance

1. Claims 1, 2 and 4-20 are allowed over prior art.
2. The following is an examiner's statement of reasons for allowance: As indicated in the previous office action claims 3-14 and 17 contain allowable subject matter, and would be allowable if re-written. Applicant has canceled claim 3, and amended claims 3-14 and 17 to include previously indicated allowable subject matter.

Although the prior art discloses improving the interfacing and data conversion associated with asynchronous and synchronous data in a communication system that communicates continuous data flow, they fail to teach or suggest with respect to claim 1, a substantially constant permanent transmission rate, except for the data that are received immediately preceding and immediately following the continuous interruption phase, with respect to claim 7, 11, 12, 13, 14, 17, 19 and 20, configuring the continuous interruption phase to extend over at least a portion of a first frame and over at least a portion of a second frame that is successive to the first frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
